

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
POLLUTION REPORT

7/11/97
EPA Region 5 Records Ctr.

304543

I. HEADING

Date: June 4, 1997
Subject: 601 Properties Site, Dayton, Montgomery County, Ohio.
From: Brad Stimple, OSC, U.S. EPA, Region V, EERB, RS-III
To: K. Mould, OSWER, Washington, D.C.
R. Karl, Branch Chief, ERB, Chicago, IL
F. Rollins, Chief RS-III, ERB, Chicago, IL
B. Messenger, Chief ESS, Chicago, IL
A. Walts, ORC, CM-29A, Chicago, IL
G. Narsette, OPA, Chicago, IL
K. Clouse, OEPA, Columbus, OH

POLREP#: POLREP 2 (Final)

II. BACKGROUND

Site ID No.: A571
Delivery Order No: 5001-05-671
Response Authority: Time-Critical CERCLA (ERB)
CERCLIS ID #: OH0001571751
NPL Status: Non-NPL
State Notification: OEPA notified
Action Memorandum Status: Approved- March 10, 1997
Start Date: April 2, 1997
Completion Date: May 21, 1997

III. RESPONSE INFORMATION

See Polrep #1 for detailed information.

IV. RESPONSE INFORMATION

A. Situation

1. Current Situation

No media activity or unusual incidents to report.

2. Removal Activities to Date

On 5-7-97, the OSC and ERCS returned to the Green Industries site (GIC), Sharonville, Ohio. Abandoned waste containers discovered in a trailer at the 601 Properties site have been temporarily stored at the secure GIC location. Waste drums were properly marked and labelled. Eleven of the twelve drums were removed from site and transported to Clean Harbors Services, Inc., Chicago, IL for proper disposal.

NOTE: One of the Kester soldering flux drums was re-characterized and placed in the flammable liquid group.

On 5-20-97, two ERCS personnel returned to the GIC site to place the remaining corrosive drum into an appropriate overpack container. On 5-21-97, the ERCS and Clean Harbors loaded the remaining drum for transportation to the Chicago disposal facility. All drums associated with the 601 Properties site have been removed for disposal.

B. Next Steps

All removal activities are complete. A final OSC report is not required to be completed for this site.

C. Results Achieved

All objectives as outlined by the Action Memorandum have been successfully completed for the 601 Properties site, Dayton, Ohio. Primary objectives included proper characterization and disposal of the waste containers discovered in the abandoned trailer. As discussed in POLREP 1, the Ohio Environmental Protection Agency (OEPA) overpacked and transported the drums and containers to the GIC removal site. OEPA was to assess and address, if necessary, any environmental threat remaining at the 601 Properties site. It is not known whether OEPA or The City of Dayton has removed the empty trailer from the 601 Properties site.

D. Key Issues

No key issues to discuss.

V. COST INFORMATION (as of 5/7/97)

| | AMOUNT BUDGETED | AMOUNT USED | AMOUNT REMAINING |
|--------------|--------------------|-----------------|---------------------|
| US EPA | \$ 5,000 | \$ 3,000 | \$ 2,000 |
| START | \$ 6,000 | \$ 1,000 | \$ 5,000 |
| ERCS | \$ 20,000 | \$ 4,000 | \$ 16,000 |
| TOTAL | \$ 31,000 | \$ 8,000 | \$ 23,000 |

The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s).

VI. DISPOSITION OF WASTES

| Wastestream | Medium | Quantity | Contaminant-Migration Control | Off-site Treatment | Disposal |
|---|----------------|----------|-------------------------------|--------------------|-------------------|
| Kester soldering flux Non-regulated waste | Liquid | 8 drums | | Fuels blending | Removed from site |
| Corrosive Liquid | Liquid | 1 drum | | Neutralization | Removed from site |
| Flammable Liquid | Liquid | 2 drum | | Fuels blending | Removed from site |
| 25 containers of waste flammable liquids and solids | Solids/Liquids | 1 drum | | Fuels blending | Removed from site |

NOTE: All wastes were transported to Clean Harbors Services, Inc., Chicago, IL for disposal.
